| This course will sharp students' ability to conduct and evaluate economic analyses of issues relating to industrial economics in world economy. We' ll look carefully at relationships between firms and the marketplace, asking why some functions are handled within the control structure of firms while others are left to market transactions. We' ll look at those market transactions with care,noticing that many of them turn out to be something quite different from arm' s length transactions in a spot market. | | | | | |
