Grading & Assessments Supplemental instructions

The course will be in a mixed lecture-discussion orientation led by the instructor. All the course materials including homework assignments, case arrangements and announcements will be released through NDHU students' email accounts.

Exams: Midterm and Final

Homework Assignments: Students should submit individual work (hard copy) toward the assignments unless otherwise specified. Assignment will be announced one week before the due date or earlier.

Cases: The material of the cases will be based on, but not limited to, the text book. A group of 2 students (depending on class size) will be randomly designated as the presenters of an assigned case. Each assigned case is required to have a 10-15 minute in-class presentation by ALL the designated student(s); other students will be the discussants. As a discussant, each student should prepare your individual report within 2 pages. Students need to email your case/discussant' s report to the instructor one day before the case is going to discuss in the class. Take Case 4 as an example: The due date for the case/discussants' report of Case#4 is 2022/10/23 (before 11pm). The file name of your discussant' s report has to save as

“student ID_student name_Case#?” in a format of PDF.

Case preparation: Students are to extend the case to include relevant industry/company information for updated discussion. Quality of case report is assessed based on the analysis of the case itself (1/2) and the extended material (1/2).
