| 課程描述 Course Description | | | | | |
| <p>This course examines the role of corporate responsibility as a strategy to improve products, profits, and brand equity. The idea of corporations as simply a wealth creating organizations with no obligations to the environment is no longer acceptable. We will examine numerous corporate initiatives that attempt to address these challenges as well as how they are being evaluated in the public eye. Globalization combined with increased transparency of corporate operations has revealed significant variations in how organizations are attempting to balance the pursuit of profits and good corporate citizenship. Increased measurement of natural resources, pollution controls, monitoring ethical supply chains, and expanded training of employees are growing globally revealing interesting results. Stakeholder expectations have also accelerated the need to monetize these initiatives however lack of standardized methodologies and metrics has resulted in confusion within many industries hindering greater progress. Continued progress of corporate responsibility represents a significant emerging opportunity for organizations these new competitive advantages.</p> | | | | | |
