### 課程描述 Course Description

The course studies corporate financial decisions in an international setting. We start with the basic concepts of international financial markets. These concepts include the global foreign exchange market and its operations, the international capital market, the global bond market, the international equity markets, and cross-border portfolio investment. Then, we discuss corporate financial decision issues, including risk management, investment, capital structure, capital budgeting, and cash management in the global context.

The main objective of this course is for the student to obtain quality working knowledge of the topics stated in the course outline below for use in your future courses and your careers.

#### 課程目標 Course Objectives
