課程大綱 Course Outline					
The role of management accounting is going through major changes. Management accountants are no longer expected to be scorekeepers of past performance alone. Management accountants are expected to create new information geared towards operational excellence and assist in formulating a implementing new strategies. New management accounting techniques such as Activity Based Costing, Kaizen and Target costing, the Balanced Scorecard, Economic					

Value

Added, etc. are adopted to meet this challenge.

The objective of this course is to provide an understanding of the evolving role that managerial

accounting plays in satisfying the informational needs of managers in their planning and controlling

functions, encompassing both short and long-term operating and strategic decision-making
