課程目標 Course Objectives					
<p>Depictions of Indigenous peoples have become increasingly common in Taiwanese popular films, tv shows, and other media. This course seeks to explore the story behind these on screen representations through history, ethnography, critical theory, and by watching and analyzing these works of popular culture directly. In doing so, the students will be introduced to the Indigenous Taiwanese history and culture, while also being taught how to interpret and understand each of these varied kinds of visual and textual materials. Most importantly, the class will tackle the question of historical memory and what such cultural texts say about the present moment.</p>
