修別 Type	選修 Elective	學分數 Credit(s)	3.0	時 數 Hour(s)	3.0
先修課程 Prerequisite					
課程目標 Course Objectives					
<p>This course presents tools necessary for managing businesses involved in or affected by technological innovation and provides a strategic framework for managing high-technology businesses as well. We shall lay emphases on the development and application of ways of thinking or mental models that bring clarity to the complex co-evolution of technological innovation, the demand opportunity, business ecosystems, and decision-making and execution within the business.</p> <p>The primary focus is on the acquisition and application of a set of powerful analytical tools that are critical for the development of technology strategy as a key element in business strategy. These tools are expected to provide students insights to anticipate and decide how to respond to the behavior of competitors, complementors and customers as behaving managers, the timing to decide which technologies to invest in, and opportunities to target or partnerships to pursue. We therefore hope to improve significantly the odds of success when figuring out how to create and capture value, make difficult decisions and develop and deliver technologies, platforms and products as well.</p>
