課程大綱
Course Outline

The course develops a general, but rigorous framework for valuing futures and options contracts and shows the interrelations between these contract markets and the markets

for the underlying securities. Specific examples are drawn from derivative contract markets on stocks, stock indexes, debt instruments, and foreign currencies.

課程要求和教學方式之建議
Course Requirements and Suggested Teaching Methods

Class Attendance and classroom etiquette:
Class participation is mandatory. A 5-point credit will be deducted from your "class attendance credit" for each additional class missed after two allowable absences. Class attendance is very important to your doing well in this class. Poor classroom etiquette will also result in the loss of credit.
Tests and Final Exam:
There will be one test during the semester and a final report in the last few week of the semester. Honor code is strictly enforced in the exam. Any cheating or attempt to cheat will automatically result in a failing grade in the course. You must turn in your exam when the time is over. I will not accept any exam that is turned in seconds late.

Grading will be based on midterm exam and final report, class attendance credit, and homework assignments. The breakdown of the total points is:
Exam: Midterm Exam 30 points; Final Report 40 points; 70 points in total
Class attendance and classroom etiquette, case studies: 30point

Policy on Make-up Test & "Extra Credit":
You are expected to take tests and exam at the scheduled time. Make-up exams are rarely granted. Students who have to miss a test with legitimate reasons such as personal or family emergency may request in advance, in writing, for a make-up. Such written requests must be submitted before the scheduled test, and I will decide on the make-up date. I will not grant any "extra credit" for extra work; you have plenty opportunities to perform well in the class.
