課程描述 Course Description										
The purpose of this course is to study the firm's investment, financing, and dividend decisions. The primary goal is to teach students how to use financial information and theory in financial management and financial decision making. The main readings for the course are Corporate Finance, Second Edition, Berk, J., and DeMarzo, P. Besides, the class will combine lectures with detailed paper discussions and presentation. In some session, I will assign you to deliver a presentation and lead the discussion. A power point presentation is required. After presentation, the power point presentation file needs to be handed in.
