課程描述 Course Description

As is suggested by the title, this course focuses on the study of financial markets, financial institutions and monetary policy.

It aims at helping students obtain a better understanding of key financial issues currently facing private citizens and policy-makers.

To achieve this goal, economic tools and concepts will be developed and real events, mainly financial crises, will be used for concrete

illustration.

To sum up, this course will examine (1) how financial markets such as bond, stock and foreign exchange markets work; (2)

how financial institutions such as banks, investment and insurance companies work; and (3) the role of money in the economy.
