| 先修課程<br>Prerequisite   |   |                             |                                 |                                    |   |
| 課程描述 Course Description  |   |                             |                                 |                                    |   |
| <p>Events in the international monetary and financial markets such as the Eurozone sovereign debt crisis, Asian financial crises, European monetary union, Mexican peso devaluation, etc. have had impacts not only on a single country but on a broader region. Having knowledge in the field of International Finance is becoming more and more important in this modern world. This course intends to cover the topics ranging from exchange rate systems, balance of payments, international financial market integration, and economic policy under an open economy framework. It will provide students who are interested in advanced study with a solid background in Open Economy Macroeconomics. For students who are ambitious in the growing global business, it will also offer basic knowledge tools for business and investment decisions in the future.</p> |   |                             |                                 |                                    |   |
