授課教師 Instructor	/林金龍			
先修課程 Prerequisite				
課程描述 Course Description				
<p>Why does anyone need to learn about the merges and acquisitions M&A and private equity (PE) fund? The answer is simple: M&A and PE are important in the real world. M&A are sometimes the only means for long-term survival and mostly are a strategic component for long-term growth. In turn, PE often provides source of funding to support M&A. This course aims at developing a solid understanding of important issues in M&A. The topics include the M&A process, methods of valuing a target firm, valuing synergies, the form of payment and financing, assessing the highly levered transaction, and governance in M&A. Cases in M&As will be used to help students for gain better understanding of the course.</p>				
課程目標 Course Objectives				
<p>The objectives of this course are to provide students with an understanding of the nature of the merger & acquisition and private equity markets, the principal participants in these markets and their activities, and the financial strategies that they employ. Topics covered include: valuation, structuring, financing and negotiating of M&A transactions; how private equity funds are raised, structured, and financed; contracting in the private equity markets; financing investments; valuation of business interests; corporate restructuring and reorganization; M&A, and exit strategies.</p>
