## 課程描述 Course Description

This is an introductory course in macroeconomics. It deals with national income determination, unemployment, price level, inflation, business cycles, economic growth, and some macroeconomic policies. Most students have taken principles of microeconomics, but this is not a prerequisite. The required textbook for this course is ''\textbf{Economics}{''\} by Michael Parkin, 10th edition, Addison Wesley. }In addition to reading the textbook, I expect you to read a daily newspaper on a regular basis. Whenever possible, class material will incorporate the latest Taiwan and international events.
