課程描述 Course Description					
<p>As is suggested by the title, this course focuses on the study of financial markets, financial institutions and monetary policy. It aims at helping students obtain a better understanding of key financial issues currently facing private citizens and policy-makers. To achieve this goal, economic tools and concepts will be developed and real events, mainly financial crises, will be used for concrete illustration.</p> <p>To sum up, this course will examine (1) how financial markets such as bond, stock and foreign exchange markets work; (2) how financial institutions such as banks, investment and insurance companies work; and (3) the role of money in the economy.</p>
