課程描述 Course Description

This is an introductory course in microeconomics. The course has two principal goals: to introduce you to the ways in which economists view the world and attempt to solve economic problems, and to teach you to utilize these ways of thinking when you approach economic questions. We will focus on some basic concepts which most economists and useful in analyzing economic issues and we will apply these concepts to a variety of problems. The central theme of the course is how and why markets work, why they may fail to work, and the implications for social policies of both their successes and failures. The required textbook for this course is \Economics" by Michael Parkin, 12th edition, Pearson. In addition to reading the textbook, I expect you to read a daily newspaper on a regular basis. Whenever possible, class material will incorporate the latest Taiwan and international events.

課程目標 Course Objectives
