先修課程 Prerequisite					
課程描述 Course Description					
<p>Identify the international financial management goal and organizational structure of the Multinational Corporation (MNC).                  Describe the key theories that justify international business and international finance                  Explain the common methods used to conduct international business and international finance                  Provide a simple model for valuing the MNC under exchange rate and international financial market uncertainty</p> <p>Class etiquette: Experience indicates that students with regular attendance of class have higher grades than those who did not. Followings are basic class etiquette. Turn off your mobile phone before class. No iPad or laptop computer is allowed to use during lecture, unless with permission from me. No loud chatting allowed in the class. Having food or drink in the class is not encouraged. Any irrational behavior in the class will not be tolerated. Any violation of the class etiquette will be penalized by reduction in your grade.</p> <p>Three strikes, you' re out: If you missed three classes without any official excuses, your semester grade will be C or below C. You need an official document for not attending class. No oral or email excuses will be accepted. Therefore, please do not email me that you could not come to class, just give me the official document.</p>					
課程目標 Course Objectives					
<p>Events in the international monetary and financial markets such as the Asian financial crises, European monetary union, Mexican peso devaluation ... have had impacts not only on a single country but on a broader region. Having knowledge in the field of International Finance is becoming more and more important in this modern world. This course intends to cover the topics ranging from exchange rate systems, balance of payments, international financial market integration, and economic policy under an open economy framework. It will provide students who are interested in advanced study with a solid background in Open Economy Macroeconomics. For students who are ambitious in the growing global business, it will also offer basic knowledge tools for business and investment decisions in the future</p>
