<b>課程描述 Course Description</b>				
<p>This is an introductory course in microeconomics. It focuses on helping students to understand the basic principles of microeconomics and the applications of theories in daily life. Since our life is in large part about making choices subject to limited resources, this course will help you see through how rational decisions are made by individuals/firms/government and how it might be changed for the better. More importantly, how the market—where ‘supply’ and ‘demand’ interact — works and sets its price will be further elaborated. Despite the fact that the efficient market is not always the case, the government will be proved to be the solution when market failure (such as externalities) occurs. Finally, this course will be taught in English- which is the beauty of this course!!</p> <p>Note:                      (1) Tutorials will take place on Mondays. (Dates to be announced.)                      (2) It is your responsibility to attend classes and quizzes. If you are not able to attend one of the classes or quizzes due to sickness or other acceptable reasons, you need to email the instructor as soon as possible.                      (3) All the updates and review questions will be posted on e學苑(e-learning website: <a href="http://www.elearn.ndhu.edu.tw/moodle/">http://www.elearn.ndhu.edu.tw/moodle/</a>). Make sure you log in the system regularly.                      (4-1) If you miss any scheduled quiz (15% each), NO SPECIAL EXAM WILL BE ALLOWED — so that every student is treated equally.                      (4-2) An exception will be made for Midterm and Final exams in case of medical emergency or funeral attendance, given appropriate proofs. Note that the grade of the specially-arranged exam will be deducted for fairness purpose. Also keep in mind that the specially-arranged exam can only be arranged after the scheduled examination date (NO EXCEPTION).                      (5) Please switch off cell phone in class.</p>
