		課	程描述 Cours	e Descrip	tion				
This course aims to fulfill two targets. First, it provides students with advanced knowledge on the field of Microeconomics, consisting of consumers' and firms' behaviors, the structure of markets, and game theories, Second, It offers students the skills of doing theoretical research by studying some essential literature.									
		課	程目標 Cour	se Object	ives				
This course covers advanced techniques of microeconomic analysis that are used in state of the art economic research, treated from a general, critical, and rigorously mathematical standpoint. Focus on five main areas in microeconomic analysis: consumer theory, producer theory, choice under uncertainty, non-cooperative game theory, and economics of information. In addition to the analytical techniques, this course also emphasize the economic intuitions behind theories.
