先修課程 Prerequisite							

課程描述 Course Description

Investment is one of the core courses in Finance area. We study several important and interesting financial instruments, which include certificates of deposits, treasury bills, treasury notes, debt securities, and stock shares in this course. We also study how to evaluate asset prices by fundamental pricing models, such as capital asset pricing model (CAPM) and arbitrage pricing theory (APT). Students who would like to seek jobs relevant to commerce/business, or would like to do smart and independent investing, are encouraged to take this course.

課程目標 Course Objectives

This course lays out the general framework for the investment process and the practical applications of investment theory. It can give students the skill to conduct an assessment of current issues and debates
