Grading & Assessments Supplemental instructions

I would like to create a discussion phenonenom during our class. So, each week I plan different topics related to “Social Psychology of Leisure” . Each student will choose three weeks for your intersted topics, two are for leading papar discussion and one is for related topics from social observation (from media, news, or social trends). Regarding presonal reflections, each student will choose four topics (except your choosen ones) to share your reflection at least in 500-1000 words to expand your knowledge to other topics. Please upload your leading ppt files before Tuesday 5 pm(one day before your presentation) and upload your reflection on the same topic when you finished (Fond size:12, Fond: Times New Romans). Sharing and learning from each other is also important part in my class.

Leading discussion: each student will have 50mins (30 mins for presentation, prepare 2-3 quesitions to facilitate our discussion). We will discuss for 10-15mins, and I will help to facilitate the discussion and clarify certain perspectives

For the Social observation part, presenter will have 15 mins to introduce your topics and provide 2-3 quesitions to facilitate our discussion.

For PhD students who took this course, I will invite you to lead at least 3 topics of papers, two topics of social obserbvation, and 4 reflections.

For the final report, you could choose one interested topic and reviewed the latest papars or methods (after 2018) for at least 5 peer-review papers (better to choose SSCI paper) to share with us. You could focus on certain groups of people (e.g. females, students, Taiwanese, etc) and some topics we mentioned to construct a small proposed study. Each student will have 50mins (25 mins for presentation and 20 mins for QA)
