課程描述 Course Description										
Since 2013, all publicly listed companies in Taiwan have been required to prepare financial statements in accordance with International Financial Reporting Standards (IFRS) to align with international standards. Throughout the course, students will learn financial accounting with IFRS. After covering Accounting Principle (I), this course delves deeply into assets such as receivables, plant assets, and investments, as well as understanding both current and non-current liabilities. Additionally, it covers equity, involving share transactions, share splits, and dividends. Moreover, students will acquire the skills to prepare and utilize the statement of cash flows to assess a company's financial well-being.										
課程目標 Course Objectives										
This course introduces the fundamental concepts of financial accounting. Throughout the course, students will learn how to read and prepare financial statements, as well as how to utilize accounting information to improve decision-making. By the end of this course, students will achieve the following objectives: 1. Grasp Fundamental Concepts of Accounting: Students will develop a solid grasp of the ethics, principles, and assumptions of accounting. 2. Navigate the Accounting Cycle: The course will guide students through the accounting cycle, offering insights into each step involved in processing financial transactions. This knowledge will provide a holistic view of how financial data is identified, processed, and transformed into informative reports. 3. Comprehend Financial Statements: Students will learn to prepare primary financial statements such as income statement, retained earnings statement, and statement of financial position. Further, they will develop basic skills in analyzing these statement of Financial Position Elements: This course provides an in-depth exploration of assets (e.g., receivables, plant assets, and investments), liabilities (e.g., current and non-current liabilities), and equity (e.g., share transactions and dividends). Specifically, the focus is on the measurement and reporting of these elements in financial statements in accordance with IFRS.
