課程描述 Course Description

This course will introduce the current positive theory research in accounting and auditing. Through presentations and discussions, this course aims to facilitate students understand the important issue in accounting and auditing field, and strengthen students' communication and presentation skills. Besides, students should read the journal paper in advance. This course will give students opportunities to criticize the research articles. This should help them to analyze and summarize different theories, and make them be able to think critically on relevant issues. Finally, this course is expected to help students in establishing their own research projects.

課程目標 Course Objectives

Accounting and auditing have a great impact on a firm's financial reporting process. Nowadays, business environment change rapidly and financial reporting continue to evolve. Under these circumstances, it is crucial to understand the underlying accounting and auditing theories. Therefore, this course aims to introduce important topics in accounting and auditing. The overall course design tries to be interesting and brainstorming. This should help students to independently work on a research paper and link theories to practices.

	系專業能力 Basic Learning Outcomes	課程目標與系專業能 力相關性 Correlation between Course Objectives and Dept.'s Education Objectives
A	具備理論與實務之專業能力	•
В	具有充實之會計理論與分析能	•
С	兼具其他管理領域之整合能	•
