課程描述 Course Description

The primary goal of this course is for students to learn about accounting as an information development and communication system that supports decision-making. Students will be also exposed to the study of accounting principles and procedures such as journalizing, posting, and the preparation of financial statements in accordance with the international financial reporting system, and other selected topics.

課程目標 Course Objectives

The primary goal of this course is for students to learn about accounting as an information development and communication system that supports decision-making. In achieving this goal, students completing this course should:

- 1. Have a broad view of accounting's role in satisfying society's need for information and its function in business, in government, in other organizations, and in public accounting.
- 2. Understand the basic features of accounting and reporting by organizations, including the principles underlying the design, integrity, and effectiveness of accounting information systems.
- 3. Understand fundamental accounting concepts and the elements of financial statements.
