授課教師 Instructor	/翁胤哲				
先修課程 Prerequisite	/＃經濟學原理-總體篇/＊經濟學原理-總體篇/＃財務管理/＊財務管理				
課程描述 Course Description					
The course studies corporate financial decisions in an international setting. We start with the basic concepts of international financial markets. These concepts include the global foreign exchange market and its operations, the international capital market, the global bond market, the international equity markets, and cross-border portfolio investment. Then, we discuss corporate financial decision issues, including risk management, investment, capital structure, capital budgeting, and cash management in the global context. The main objective of this course is for the student to obtain a solid working knowledge of the topics outlined in the course outline below for use in future courses and in their careers.					
課程目標 Course Objectives					
The course studies corporate financial decisions in an international setting. We start with basic concepts of international financial markets, such as the global foreign exchange market and its operations, the international capital market, the global bond market, the international equity markets, and cross-border portfolio investment. Then, we discuss corporate financial decision issues including risk management, investment, capital structure, capital budgeting, and cash management in the global context.
